ISPRS Geo-Spatial Week 2025 (GSW 2025)

Dubai, United Arab Emirates

April 6th to 11th, 2025

Important Dates

15th October, 2024

Tutorial Proposal Due

31st October, 2024

Notification of Acceptance

30th November, 2024

Full Tutorial Material Due

Call For Tutorials

The ISPRS Geo-Spatial Week 2025 (GSW 2025) is set to be a landmark event, bringing together the brightest minds and leading professionals in the photogrammetry, remote sensing, and spatial sciences. The conference theme, “Photogrammetry and Remote Sensing for a Better Tomorrow”, focuses on the transformative potential of these technologies in addressing global challenges and shaping a sustainable future. The conference will feature a diverse range of sessions, workshops, and discussions designed to inspire innovation and collaboration.

We are excited to announce the “Call for Tutorials” for GSW 2025. The shortlisted tutorials will be part of the GSW 2025 Conference Program, scheduled for April 6, 2025. This is a unique opportunity to share your expertise with a global audience of students, professionals, researchers, and enthusiasts in this domain.

Tutorial Structure

Duration: Each tutorial will last a total of 3 hours.

Format: The session will be divided into two 1.5-hour segments, with a 30-minute break in between.

Speakers: We encourage tutorials with 1 to 3 speakers to ensure an engaging and diverse presentation.

Selection Process: Four tutorials will be selected for inclusion in the conference program, offering a platform to present cutting-edge ideas and innovations.

Please submit your tutorial proposal to tutorials@gsw2025.ae
